

Event Titled: 'CMMI for 8(a) Organizations in USA'

'Benefits of being CMMI accredited for 8(a) Companies'

In a recently concluded event held by Nihilent Technologies on the 3rd and 5th of May 2011 at the Washington Marriott, Washington DC and Fairview Park Marriott Virginia respectively, Mr. Ashok Sontakke, Vice President, Nihilent Technologies showcased the 'Benefits of being CMMI accredited for 8(a) Companies in the United States of America'. Mr. Ashok Sontakke is a SEI Certified High Maturity Lead Appraiser with more than thirty years of experience in guiding, implementing and appraising a wide array of organizations on CMMI.

The Breakfast Meetings was attended by CEOs and COOs of 8(a) Companies and it gave valuable insights on how 8(a) Companies can reap multiple benefits to get more business from the Federal Sector by initiating CMMI Process Initiatives. . The objective of the meeting was to have a fruitful discussion on how implementing CMMI not only would strengthen their internal processes but also be one of the most important steps that they have taken in being a *sought after company* that allows them to be a *strong provider of solutions to the Federal Government* – which is their main area of operations. The session was also co-chaired by Mr. Jonathan Wiesman, Vice President, Nihilent Inc USA.

Nihilent Technologies are a partner of Software Engineering Institute (SEI) located at CMU (Carnegie Mellon University) to provide CMMI services in the USA
