

iDeal

AI-Assisted Sales Order Creation

**From 20 Minutes to Under 5 – Sales Orders
at the Speed of Business**

OVERVIEW

iDeal brings **Joule AI** into the sales order process, automating what used to be a slow, manual, error-prone task. Sales teams submit customer purchase orders and let AI handle the validation, matching, and creation – cutting order creation time to under 2 minutes and letting the business team focus on customers, not systems.

HOW IT WORKS

Automated
sales order
process
end-to-end

Improved
accuracy
and reduced
errors

Automatic
validation of
purchase
orders (PO)

Enhanced
productivity
across the sales
operations teams

Frees the business team
to focus on customer
relationships, not
manual system entry

BUSINESS IMPACT

METRIC	RESULT
Creation time	20 min to <2 min
Match confidence	≥95%
Manual review	Zero
S/4HANA sync	Live Sales Order

WHY IT MATTERS

Faster, error-free order creation means shorter order-to-cash cycles and sales teams spend more time selling and less time on repetitive data entry.
